JOHN LLOYD FINISHES THIRD IN SECTION OF STATE RESERVE SINGLES

Wayne Ede was undefeated in his three matches in the section.

In round 2 **David Madson** finished with a flourish to overcome **Matt Lake** 25 points to 22 points.

This was a great match particularly the first half where scores were level 10:10 after 14 ends. Matt then added 8 shots in 3 ends and was bowling with confidence to lead 18:10 after 17 ends. In an incredible turnaround David won 6 of the next 8 ends to level 22 apiece after the penultimate end.

In round 2 played last Thursday **Chris Sinclair** rolled away to lead **Bevan Piper** 11 points to nil after only 5 ends and it appeared that early drinks were on the cards.

Bevan then won 13 of the next 19 ends to level the scores at 22 all (including a 4 pointer when Chris inadvertently wrested his shot bowl).

In the end Chris proved too good adding the 3 points needed for victory.

POSTCARD FROM CANADA

Hi All

y We made it to Niagara Falls and they were spectacular! The noise of the falls was thunderous.

- The Falls at Niagara were formed about 12,000 years ago
- The Horseshoe Falls are 180 feet (57 meters) high and allow 6 million cubic feet (168,000 cubic meters) of water over the crestline every minute during peak daytime tourist hours (that is about a million bathtubs full of water every minute!)

We still have Toronto to visit and then at the beginning of August we will say goodbye to Canada and start the long journey home to Lane Cove.

Looking forward to seeing you all again.

Carole and Glenn

AUSSIE DESTINATIONS – Crookwell, NSW

Southern Tablelands rural service centre known for the 'cleanest air in the state'.

Crookwell is a quiet rural service centre surrounded by a rich agricultural and pastoral district. It is located at the confluence of the Crookwell River and Kiamma Creek and, at an elevation of 914 metres, can be cold in winter and hot and dry in summer. The district is recognised as one of the state's major producers of seed potatoes, wool, fat lambs, beef cattle, oats, hay, dairy produce and cold-climate fruits. There are also horse studs, alpaca farms and olive groves in the area. Tourism is now the third most important industry in the district.

Location

Crookwell is 914 metres above sea level. It is located 238 km south-west of Sydney via Goulburn.

Origin of Name

Crookwell takes its name from the Crookwell River which was probably named Crookhall after the family home of William Stephenson, an early settler who came from England. There is no definitive evidence for the naming of the river.

Lindner Sock Factory

The Lindner Sock Factory started in the Southern Tablelands in 1987 when a factory was built in Goulburn. Already the company were famous German sock (or hosiery) manufacturers having started in 1921 as H. Max Lindner Fabrik in Thalheim. The family fled Germany after World War II, stayed in the US for a few years, and then migrated back to Germany where they became so successful they made the socks for the 1974 West German soccer team and were making socks under contract for Adidas. In 1986, fearful of the fallout from Chernobyl, they split the company and Wilfred Lindner moved to Australia. He established Lindner Quality Socks Pty Ltd in Goulburn and in 1997 moved to Crookwell. As they proudly declare: "Many of the locals now proudly wear their Lindner Socks, and over the years the shop and factory have become one of the town's attractions for tourists and visitors, some of whom specifically travel to Crookwell to stock up on socks

Crookwell Wind Farm

The Crookwell Wind Farm is one of the country's earliest wind farms. It dates from 1998 and consequently the signage is amusingly antique: "As a renewable source of energy, wind power enables electricity to be generated without any carbon dioxide emissions. Each year the Crookwell wind farm will save around 8,000 tonnes of carbon dioxide emissions, that would otherwise have been produced from coal fired generation. At full output the wind farm will be capable of meeting the average electricity demand of 3,500 homes. The wind farm was constructed and commenced operating in 1998, following long term wind monitoring at the site. The energy generated is fed into Country Energy's transmission grid for distribution to customers. The wind farm is connected via underground 11kV cables to a substation, which steps up the voltage for connection to the local 66 kV transmission grid. Eraring Energy acknowledges the contribution to a sustainable energy future made by the property owners, the Seaman family, Australia's first wind farmers

Markdale Homestead

This glorious country house was built by the Ashton family in the 1920s after the four Ashton boys, having shown the English how to play polo, managed to do a roaring trade in polo pony exports.

Laggan and Willowvale Mill

Laggan, named by Governor Macquarie, lies 9 km north-east of Crookwell. It is surrounded by rolling hills given over to farming and grazing. The old Willowvale Mill, built in the 1850s, closed in 1904, restored in the 1970s and opened as Willowvale Mill restaurant is now a guesthouse and restaurant which is highly rated as the best restaurant in the district.

JOKE OF THE WEEK. A husband and wife had been married for 60 years and had no secrets except for one: The woman kept in her closet a shoe box that she forbade her husband from ever opening.

But when she was on her deathbed—and with her blessing—he opened the box and found a crocheted doll and \$95,000 in cash. “My mother told me that the secret to a happy marriage was to never argue,” she explained. “Instead, I should keep quiet and crochet a doll.”

Her husband was touched. Only one doll was in the box—that meant she’d been angry with him only once in 60 years. “But what about all this money?” he asked.

“Oh,” she said, “that’s the money I made from selling the dolls.”

Riddle: Halfway — after that, you’re walking out.

Mabel. Doris, do we drink our wine responsibly.

Doris. Of course, Mabel. We don't spill it!

TICKLES CORNER

Jangles, remember when we were drinking margarita and the waitress screamed “does anyone know CPR?”

Yes Spike, I do. I yelled “I know the entire alphabet” and we all laughed and laughed except one guy.

Billy

“Humans. Do you know wise men speak because they have something to say; Fools because they have to say something.”

WORD OF THE WEEK: JEREMIAD: a complaining tirade.

IDIOM OF THE WEEK: Keeping an eye on you: To watch someone or something carefully; to be attentive to someone or something.

QUOTE OF THE WEEK: “Don’t worry about what I’m doing. Worry about why you’re worried about what I’m doing.”

ANOTHER VIEW: “She both torments and is tormented at the same moment, and is ever her own punishment.” – *Metamorphoses* by Henry Thomas Riley

A NOVEL NOTE: “What you see and what you hear depends a great deal on where you are standing. It also depends on what sort of person you are.” *The Magicians* Nephew, C.S. Lewis

DID YOU KNOW: In many parts of Canada, milk comes in bags rather than cartons or jugs. This is particularly the case in eastern Canada, where buyers receive a big bag with four smaller bags of milk inside, to then put in a specially designed pitcher. The corner of the bag is cut and then, voila! All the milk you could ever want at your disposal.

FUN FACT: Venezuela is home to the highest uninterrupted waterfall in the world, Angel Falls. It is 17 times higher than Niagara.

SHE SAID IT: “I don’t often lose my temper, but I often have to use it.” – Dolly Parton

HE SAID IT: “If women didn't exist, all the money in the world would have no meaning.” - Aristotle Onassis

SHE ALSO SAID IT: “It's the good girls who keep diaries; the bad girls never have the time.” - Tallulah Bankhead

HE ALSO SAID IT: “The average woman would rather have beauty than brains, because the average man can see better than he can think.” - Mark Twain

GOOGLE MAPS: Danish brothers Lars and Jens Rasmussen developed the platform for Google Maps in Sydney in the early 2000s. Along with Australians Neil Gordon and Stephen Ma, they founded a small start-up company called Where 2 Technologies in 2003. The following year it was bought by internet giant Google, which also hired the four men, and the technology was turned into what we now know as Google Maps.

OLDER AUSTRALIANS ENCOURAGED TO ROLL BACK THE CLOCK

Lane Cove Bowling and Recreation Club is taking a step towards curbing low physical activity rates among older Australians by encouraging them to "roll back the clock" through lawn bowls.

Roll Back the Clock is a Bowls Australia initiative, in partnership with Sport Australia, that aims to boost physical activity rates among Australians aged 65 and over through bowls, light exercise and education.

Presently, as little as 25-percent of Australians over-65 meet the Department of Health's physical activity guidelines of 30 minutes of activity per day.

Health-related reasons, including physical and mental health, are the main barriers for older Australians participating in sport or physical activities and bowls is seen as a low-impact, socially-inclusive activity that can be enjoyed by individuals of all ages.

Roll Back The Clock programs incorporate a two-part activity lasting 30 minutes each, targeting both the body and mind through bowls, functional training, fitness and wellness education, and socialisation.

Sessions are adapted for individuals, with benefits ranging from enabling participants to perform activities of daily life more easily, to withstanding injuries and providing a sense of accomplishment and achievement.

In addition to the physical health benefits, engaging in physical activity and group sports for older Australians provides increasingly important opportunities for socialisation, peer-support, and conversation that reduces the possibility for loneliness related physical and mental illnesses.

Roll Back The Clock will be staged regularly at **Lane Cove Bowling and Recreation Club**, over 8 weeks, commencing 18 July 2023. Cost: \$80

🕒 The program will run from 2:00pm – 3:00pm on Tuesdays and combines exercise, wellness education, socialisation and little bit of bowls.
